Common things to discuss with the contractor prior to the start of the project:

How does the contractor bill? By the hour? By the foot or rod? By the tile size?

Is the contractor expecting you to help?

How much will labor cost and how is it calculated in addition to the price of any machinery?

Are there charges and/or fees for extra labor?

Is there a moving-in charge, and if so, how much?

Does the contractor charge extra for handling pallets and how much?

Is there a charge for rock time on tiling, and if so, how much?

Is backfilling included in the cost of tiling?

When is the project expected to start and finish? What if weather does not permit the work?

Does the contractor have references?

This list of contractors does not constitute an endorsement by the Erie Soil and Water Conservation District.
